

MAGLITES

MAG-LITE C-CELL

OVERVIEW

The Mag-Lite C-Cell flashlight embodies the precise balance of refined optics, efficient power, durability and quality in a small, light weight design. Each Mag-Lite C-Cell flashlight includes two high intensity White Star Krypton Gas Lamps for enhanced brilliance and extended range.

STYLE

The Mag-Lite C Cell has the following features :

- High-intensity light beam.
- Focusing beam - 1/2 turn, cam action focus, spot-to-flood.
- Self-cleaning rotary switch, 3 position, On, Off, and Signal, (Manual, Momentary On-Off).
- Smaller & lighter than the D cell.
- Spare lamp safely secured in the tailcap.
- High-strength aluminum alloy cases.
- O-ring sealed for water resistance.
- Limited Lifetime Warranty.
- Individually serial numbered.
- Made in the USA.

MAGLITE SOLITAIRE

OVERVIEW

Weighing less than an ounce and about 7.5cm in length, the Solitaire offers the same precision engineering found in every Mag-Lite, using only a single AAA battery, its focusing beam is surprisingly bright for such a small flashlight. Each Solitaire comes complete with an Energizer alkaline battery and a sturdy keyring lanyard. A spare Solitaire lamp is included in the flashlight tail cap.
