

## PRODUCT SPECIFICATIONS

### MARINE BINOCULARS

#### OVERVIEW

We suggest you keep them on board, but made the Marine series binoculars buoyant, waterproof and corrosion resistant. You'll appreciate the ultra-bright, crisp views granted by their multi-coated optics and premium BaK-4 prism glass. Rugged rubber armoring provides a sure grip, absorbs shock and keeps them from sliding in rough conditions. New to the line is a version with a 3-Axis Digital Compass or the ultimate binocular for the high seas
