

PRODUCT SPECIFICATIONS

PAULSON LIGHT WEIGHT BODY ARMOUR

OVERVIEW

Description

The shock absorbing, flame retardant components are designed to provide maximum protection to the body including the chest, back and shoulder. The arm protection is secured at the shoulder with a heavy duty strap and buckle system and protect from the shoulder, to the elbow and down to the wrist. Protection on the lower body is from the top of the foot to the knee. The unit provides a high degree of flexibility and can be adjusted to any size with ease using the rubber and Velcro fastening system. One size fits all and can be worn on top of the uniform or underneath.
